

Find a Provider in Four Easy Steps

To locate providers participating in the HealthEOS, PHCS and/or MultiPlan networks, including ValuePoint by MultiPlan®, visit www.multiplan.com and click “Search for a Doctor or Facility.” Then, follow these four easy steps to identify your providers of choice.

Step 1: Identify Your Network Logo. The network used by your health plan is identified by a logo on your benefits identification card. Toggle between the “Most common logos” and “Other network logos” tabs to match the logo that most closely resembles the one(s) on your card. If you see more than one matching logo on the front or back of the card, choose the best matching logo in this order: HealthEOS, then PHCS, then MultiPlan. You may select only one logo; however, if you also see the words “Healthy Directions” or “Extended PPO” on your card, please also select that option.

If you have matching logos on both the front and back of the card, select the logo(s) on the front.

Click “Other network logos” if you don’t see a match on the front, before moving to the back. Note that ValuePoint can be found on this tab.

If you cannot determine from the front or back of the card which logo to select, click on “My logo is not here” and you will be allowed to search select providers in the MultiPlan Network. You may also call the customer service number provided on your benefits identification card for assistance.

Step 2: Provider Type. Choose between Doctor and Facility. Then read and acknowledge the conditions that apply to this online search tool.

Depending on your health plan, the provider you select may not be available and the services you need may not be covered. Before scheduling an appointment, you should always follow these two steps.

Your selected logo is displayed in the blue box.
