Top Drawings in MultiPlan's Holiday Card Program Announced

Children's artwork to be featured on custom holiday cards

New York, NY, October 10, 2016 — MultiPlan, Inc. is pleased to announce the top drawings selected in its 2016 Holiday Card program. Thousands of votes were cast to determine the five favorite drawings, which were posted on MultiPlan's website. These drawings will be featured on holiday greeting cards produced by MultiPlan and given to the hospitals that submitted the entries. The hospitals may then use these cards to raise funds that support pediatric patient activities. The top five artists receive their very own holiday cards featuring their artwork, a framed print of their drawing, and a cash value gift card.

Congratulations to these hospitals that submitted the top drawings:

- McLane Children's Hospital at Scott and White, Temple, Texas
- CHRISTUS Hospital – St. Elizabeth, Beaumont, Texas
- Upstate Golisano Children's Hospital, Syracuse, New York

See all of this year's drawings on MultiPlan's website at

<http://www.multiplan.com/providers/holiday/vote/>.

“It's really neat to see the creativity of each submission every year.” said Dr. Anthony Sposato, Chief Medical Officer for MultiPlan. He continued, “The joy the Holiday Card program brings has no limits. From the young artists, to the hospital staff and throughout the MultiPlan employees, we're all winners when it comes to this program”

In conjunction with this program MultiPlan will make a donation to Starlight Children's Foundation, a children's health charity that brightens the lives of seriously ill children and their families. Since 1982, Starlight has helped more than 60 million sick kids in the US, Canada, Australia and the United Kingdom simply be kids by providing programs that offer the best in entertainment, education and innovative technology. Starlight works with more than 800 children's hospitals, clinics, camps and other community partners across to turn a child's pain, fear and stress into fun, joy and laughter – because a sick kid is still a kid at heart.
