

MULTIPLAN'S PHCS NETWORK RECEIVES TENTH CONSECUTIVE NCQA CERTIFICATION/ACCREDITATION

July 16, 2019 (New York, NY) – MultiPlan Inc. announced that in June, the PHCS Network received Accreditation in Credentialing by the National Committee for Quality Assurance (NCQA). The PHCS Network was first certified in 2001 and has maintained NCQA certification/accreditation for ten consecutive cycles.

To maintain its NCQA Accreditation in Credentialing, the PHCS Network underwent a rigorous review of the credentialing and recredentialing processes and demonstrated compliance with NCQA's standards. This achievement confirms the quality and consistency of the service MultiPlan offers to its clients, providers and health plan participants who use the PHCS Network. The new Accreditation is valid through June, 21, 2022.

"We're thrilled that for almost two decades, NCQA has endorsed the processes we use to credential providers participating in the PHCS Network. MultiPlan is committed to quality throughout the organization, and the PHCS Network's NCQA Accreditation gives our clients' additional confidence that they are providing access to a quality network," said Dr. Anthony Sposato, MultiPlan's Corporate Medical Director.

The PHCS Network, MultiPlan's PPO network, is the largest independent primary PPO in the nation. It provides health plan members with seamless access to healthcare services whether they seek care in their backyard or across the country.
